

READING PLAN

We don't mind talking about the weather- "better bring an umbrella!" We might let someone influence our choice of food or entertainment- "You have to see this movie!" But some things are just too personal. As Billy Joel famously sang, "Keep it to yourself, it's my life." When it comes to my life, my faith, and my money...hands off!

At least that's the conventional thinking. But what if God has something to say to us about these personal subjects? What if He wants the very best for us if we could humble ourselves to listen and learn from Him? Join us at SG as we find out in our new series, It's Personal!
